TCP filter, 2 packets	pass	pass	Test 16
TCP filter, 10 packets	pass	pass	Test 17

Tests

Test 1

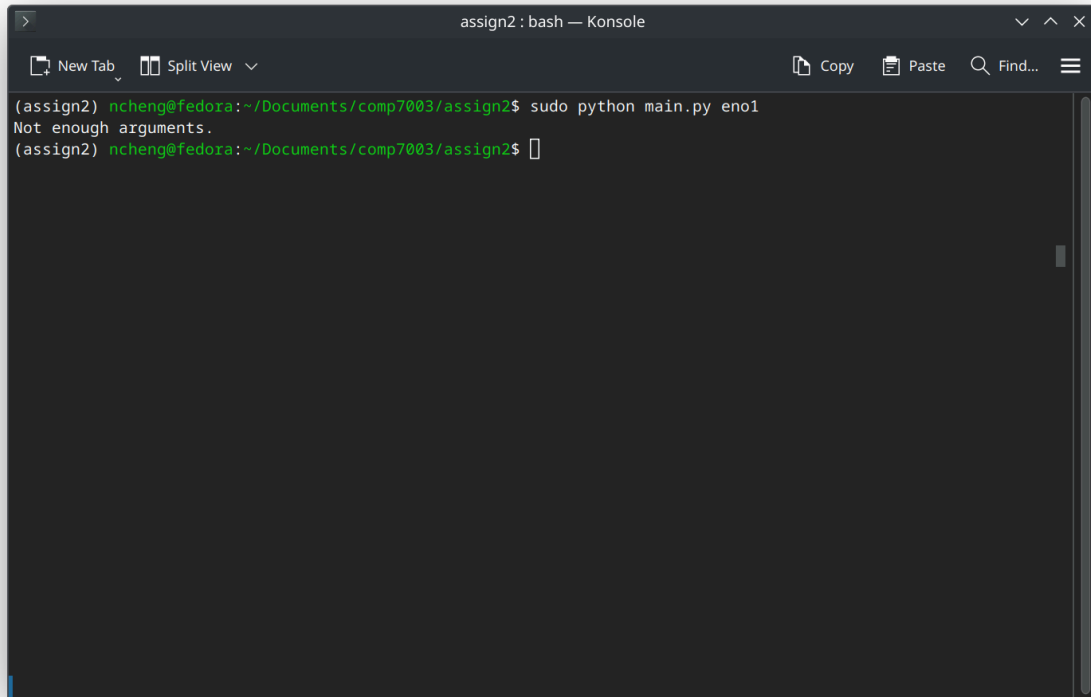

The image shows a terminal window titled "assign2 : bash — Konsole". The window has a dark background and a light-colored text. The terminal content is as follows:

```
(assign2) ncheng@fedora:~/Documents/comp7003/assign2$ sudo python main.py
Not enough arguments.
(assign2) ncheng@fedora:~/Documents/comp7003/assign2$
```

The terminal window includes a menu bar at the top with options like "New Tab", "Split View", "Copy", "Paste", "Find...", and a hamburger menu icon. The prompt "(assign2)" indicates the user is in a subshell.

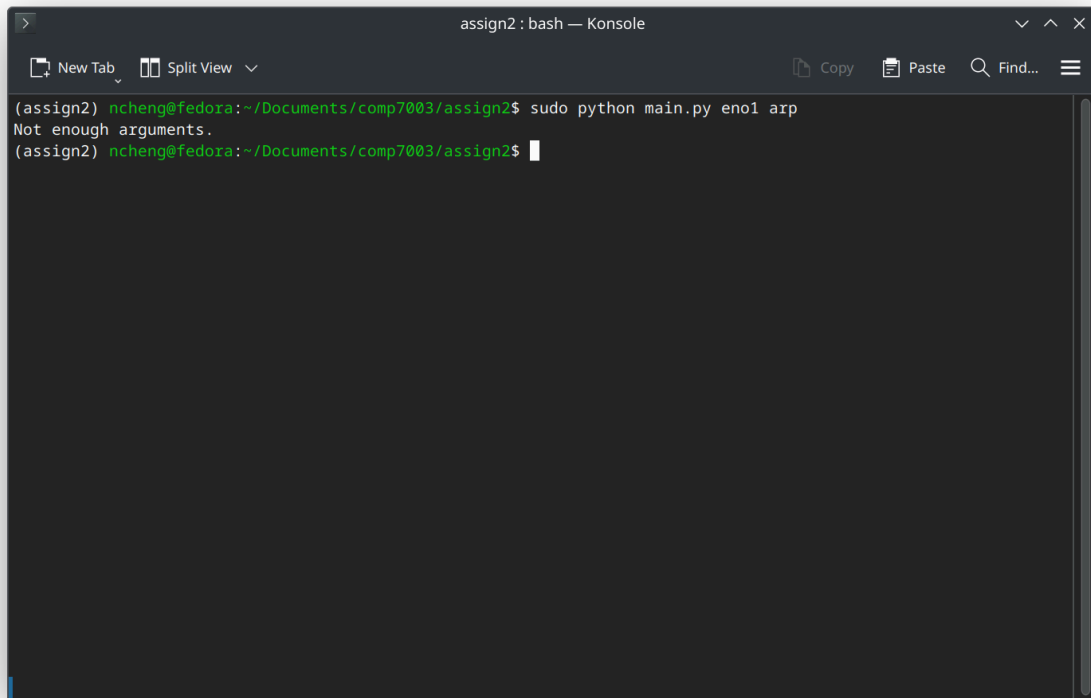

Test 2

The image shows a terminal window titled "assign2 : bash — Konsole". The window has a dark background and a light-colored text. The prompt is "(assign2) ncheng@fedora:~/Documents/comp7003/assign2\$". The command "sudo python main.py eno1" has been entered. The output is "Not enough arguments." followed by a new prompt line "(assign2) ncheng@fedora:~/Documents/comp7003/assign2\$". The terminal window includes a menu bar with "New Tab", "Split View", "Copy", "Paste", "Find...", and a hamburger menu icon. A scrollbar is visible on the right side of the terminal area.

```
(assign2) ncheng@fedora:~/Documents/comp7003/assign2$ sudo python main.py eno1
Not enough arguments.
(assign2) ncheng@fedora:~/Documents/comp7003/assign2$
```

Test 3

A terminal window titled "assign2: bash — Konsole" with a dark background. The window has a menu bar with "New Tab", "Split View", "Copy", "Paste", "Find...", and a hamburger menu icon. The terminal shows the following text:

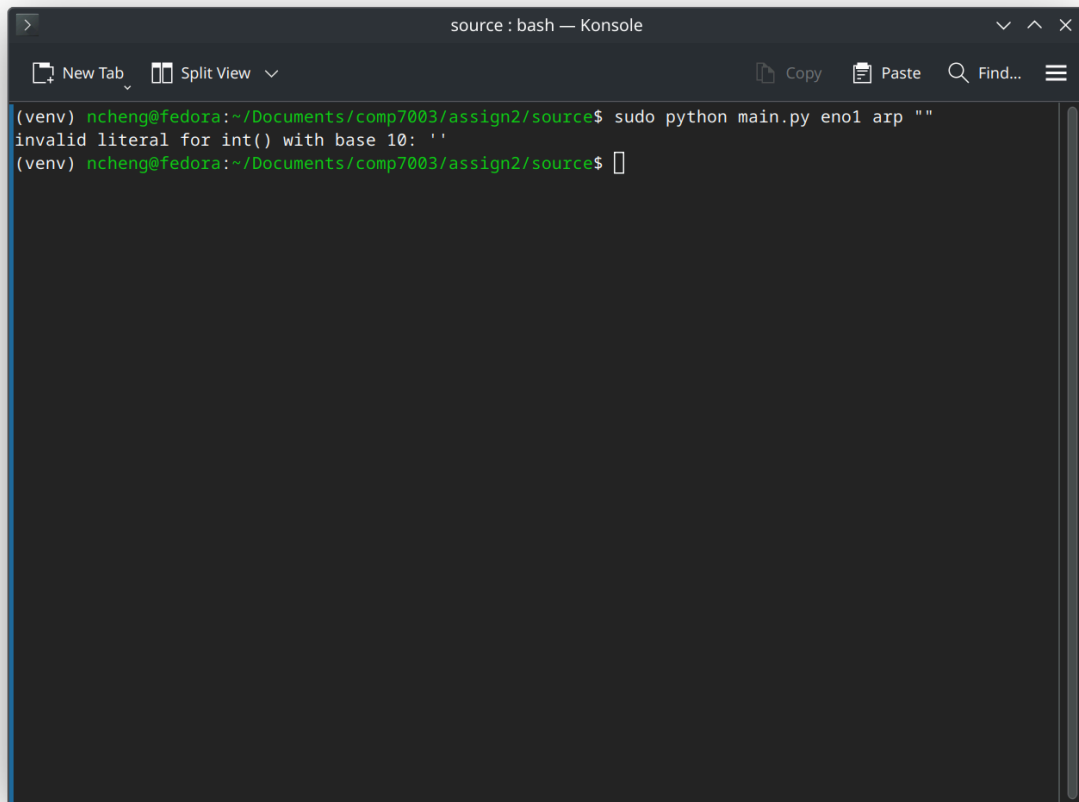

```
(assign2) ncheng@fedora:~/Documents/comp7003/assign2$ sudo python main.py eno1 arp
Not enough arguments.
(assign2) ncheng@fedora:~/Documents/comp7003/assign2$
```

The prompt is green, and the error message is white. A vertical scrollbar is visible on the right side of the terminal area.

Test 4

[illegible]

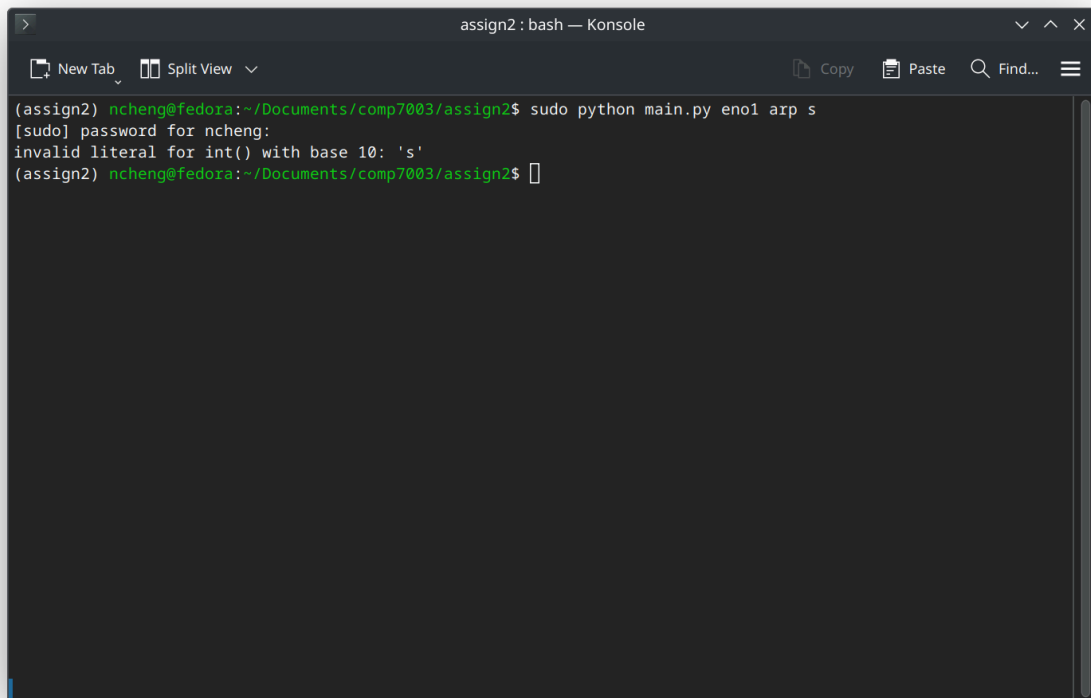

Test 5

A screenshot of a terminal window titled "source : bash — Konsole". The window has a dark background and a light-colored border. At the top, there is a menu bar with "New Tab", "Split View", "Copy", "Paste", "Find...", and a hamburger menu icon. The terminal content shows a user prompt "(venv) ncheng@fedora:~/Documents/comp7003/assign2/source\$" followed by the command "sudo python main.py eno1 arp """. The output is "invalid literal for int() with base 10: ''". The prompt is repeated, followed by a cursor.

```
(venv) ncheng@fedora:~/Documents/comp7003/assign2/source$ sudo python main.py eno1 arp ""
invalid literal for int() with base 10: ''
(venv) ncheng@fedora:~/Documents/comp7003/assign2/source$
```

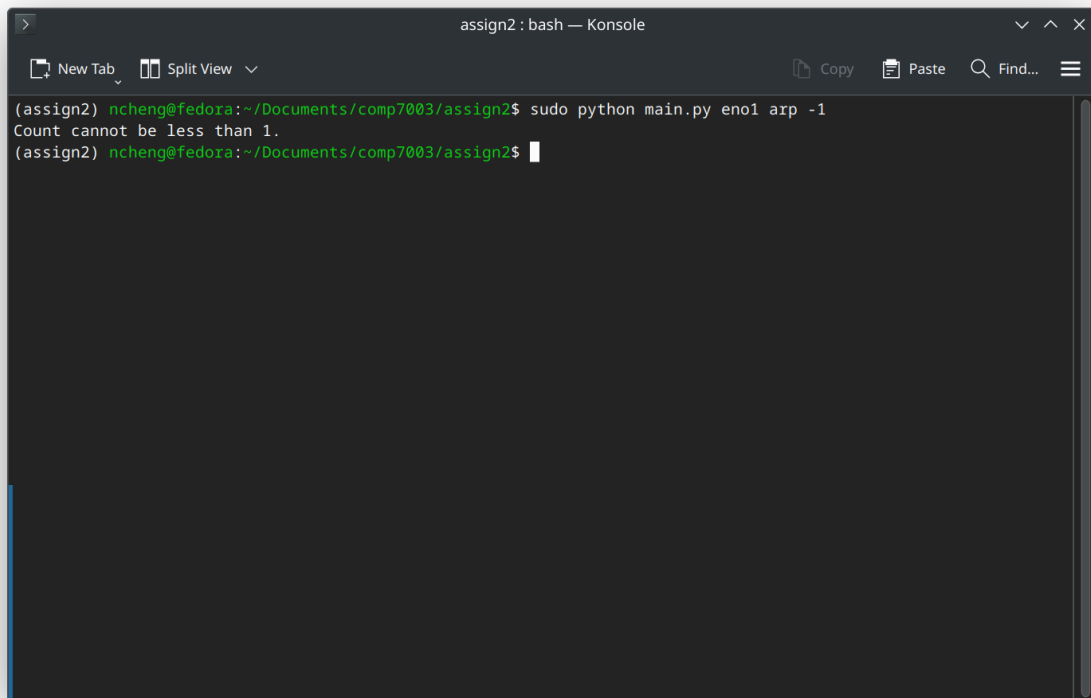

Test 6

```
assign2 : bash — Konsole
New Tab Split View Copy Paste Find...
(assign2) ncheng@fedora:~/Documents/comp7003/assign2$ sudo python main.py eno1 arp s
[sudo] password for ncheng:
invalid literal for int() with base 10: 's'
(assign2) ncheng@fedora:~/Documents/comp7003/assign2$
```

The image shows a terminal window titled "assign2 : bash — Konsole". The window has a dark background and a light-colored text. The terminal shows a user named "ncheng" at a prompt "ncheng@fedora:~/Documents/comp7003/assign2\$". The user enters the command "sudo python main.py eno1 arp s". The terminal then shows a prompt for a password "[sudo] password for ncheng:". The user enters a password, and the terminal shows an error message "invalid literal for int() with base 10: 's'". The terminal then shows a prompt for the user "ncheng@fedora:~/Documents/comp7003/assign2\$".

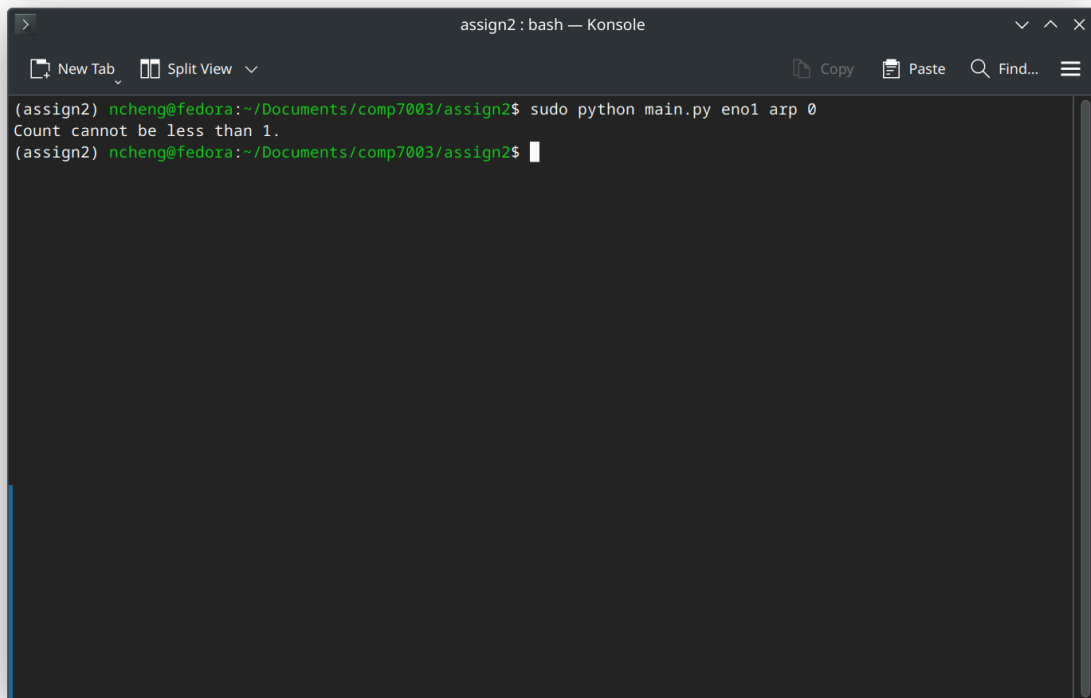

Test 7

The image shows a terminal window titled "assign2 : bash — Konsole". The window has a dark background and a light-colored text. The prompt is "(assign2) ncheng@fedora:~/Documents/comp7003/assign2\$". The command entered is "sudo python main.py eno1 arp -1". The output is "Count cannot be less than 1." followed by a new prompt "(assign2) ncheng@fedora:~/Documents/comp7003/assign2\$".

```
(assign2) ncheng@fedora:~/Documents/comp7003/assign2$ sudo python main.py eno1 arp -1
Count cannot be less than 1.
(assign2) ncheng@fedora:~/Documents/comp7003/assign2$
```

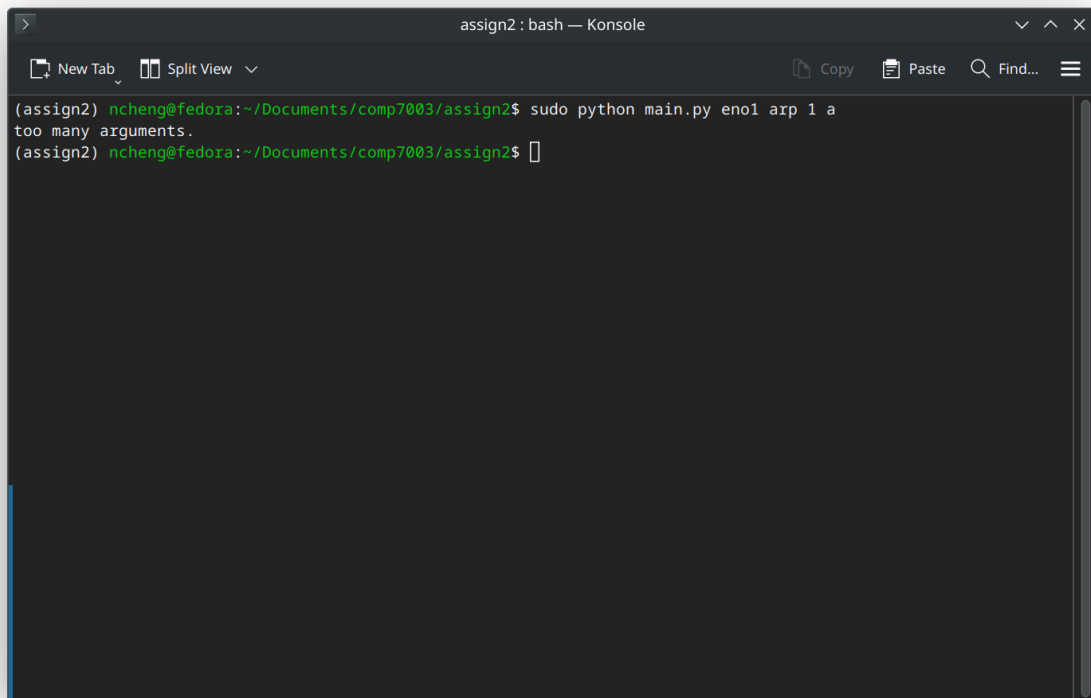

Test 8

```
assign2 : bash — Konsole
New Tab Split View Copy Paste Find...
(assign2) ncheng@fedora:~/Documents/comp7003/assign2$ sudo python main.py eno1 arp 0
Count cannot be less than 1.
(assign2) ncheng@fedora:~/Documents/comp7003/assign2$
```

The image shows a terminal window titled "assign2 : bash — Konsole". The window has a dark background and a light-colored text. The terminal shows a user prompt "(assign2) ncheng@fedora:~/Documents/comp7003/assign2\$" followed by the command "sudo python main.py eno1 arp 0". The output of the command is "Count cannot be less than 1.". The prompt is then followed by another instance of the user prompt "(assign2) ncheng@fedora:~/Documents/comp7003/assign2\$". The window also features a top bar with icons for "New Tab", "Split View", "Copy", "Paste", "Find...", and a menu icon.

Test 9

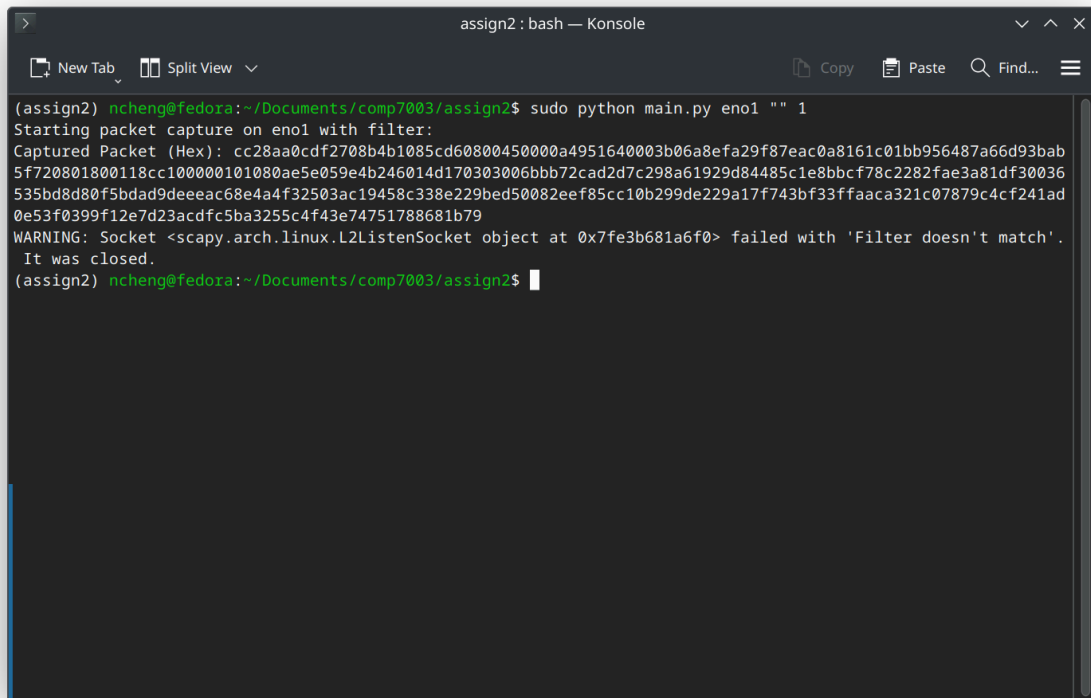

A terminal window titled "assign2 : bash — Konsole" with a dark background. The window has a menu bar with "New Tab", "Split View", "Copy", "Paste", "Find...", and a hamburger menu icon. The terminal shows the following interaction:

```
(assign2) ncheng@fedora:~/Documents/comp7003/assign2$ sudo python main.py enol arp 1 a
too many arguments.
(assign2) ncheng@fedora:~/Documents/comp7003/assign2$
```

The prompt is green, and the error message is white. A vertical scrollbar is visible on the right side of the terminal area.

Test 10

```

```

Test 14

A terminal window titled "assign2 : bash — Konsole" with a dark background. The window has a menu bar with "New Tab", "Split View", "Copy", "Paste", "Find...", and a hamburger menu icon. The terminal shows the execution of a Python script that captures a packet on the eno1 interface with a UDP filter. The output displays the captured packet in hexadecimal, followed by its source and destination ports, length, and checksum.

```
(assign2) ncheng@fedora:~/Documents/comp7003/assign2$ sudo python main.py eno1 udp 1
Starting packet capture on eno1 with filter: udp
